Luxurious Experience ...

*Terme 3000 – The World
of Aquatic Pleasure and Adventures ...*

Welcome to Terme 3000

Terme 3000 is a true paradise for all who strive for adventure, active holidays and health. Relaxing in the rejuvenating water and health centre, exploring abundant sporting and entertainment possibilities or discovering the natural beauty and nearby sights, either way, your days spent with us will be unforgettable.

We used the thermal springs of Terme 3000 to create this magical aquatic pleasure world. Stretching over 5,000sqm of water areas and 26 indoor and outdoor pools, including special pools for children and a jumping pool, all filled with natural »black«, thermo-mineral or regular water, it awaits you all year round.

Holidays for the Whole Family

Give yourself up to refreshing water and attractive water programmes. In addition to four open slides, a »free fall« slide and a 24m high slide tower with visual effects tube slides of 140m and 170m in length, there are swimming tracks, rapids, hydro-pneumatic deck chairs, geysers, waterfalls, river streams, whirlpools, a jumping pool and submerged Jacuzzi massages available for your indulgence.

Terme 3000 –A Thousand Flavours for Every Day of the Year

Varied culinary experience: our Round Restaurant with a wide selection of daily menus, our buffet restaurant at the swimming pool, the first floor tavern, the “Summer Garden” and the “Hay Bar” offer house specialties and refreshing drinks to satisfy all tastes, including fast-food lovers.

Thermalium Health Centre

The Thermalium Therapeutical Centre operates in compliance with the latest European standards. The Centre's services will satisfy even the highest therapeutic requirements.

Black Thermal Water

The »Black« thermal waters which rise from the Moravske Toplice springs have been recognised as a natural remedy since 1964. At the wellspring, the turbid, salty water, slightly smelling of oil, reaches a temperature of around 72 degrees centigrade. The water is hypertonic, hyper-thermal and sodium-chloride hydro-carbonated. Commonly, hydro-carbonate waters rise from the depths of the earth cold, making ours which is hot at the wellspring, even more precious.

Bathing in our water has beneficial effects on the body – it refreshes the organism, improves blood circulation, reduces nervous tension, as well as helping the skin to tan much faster in the sun.

Indications:

Degenerative rheumatism, chronic inflammatory rheumatic diseases, non-joint rheumatism, posttraumatic and postoperative conditions of locomotive system with functional handicaps/disorders, non-infectious skin diseases, chronic obstructive lung diseases.

Contraindications: relative contraindications, acute infectious diseases, vital organ decompensate states (heart, lungs, liver, kidneys), mental conditions (psychoses).

Hydrotherapy, kinesiology, thermotherapy, acupuncture, electrotherapy and mechanical therapy are contemporary therapies provided in the Thermalium Health Centre, where our professional staff and natural agents (thermal water and fresh-water peloid) combine in successful treatment of disease conditions.

Special programmes for managers include preventive examinations and we particularly focus on determination of heart and brain disease risk factors.

*Health Welling from
the Depths of Pannonian Sea*

*Thermalium –
Centre of relaxation, beauty and well-being*

Pleasure Oasis ...

Surrender to the most advanced and benevolent body treatment and relaxation programmes with the help of healing »black« thermo-mineral water.

In the modern Thermalium centre you can spoil yourself with one of the three attractive wellness programmes available: beauty, relaxation and body treatment.

In the heart of the plains across the Mura river, surrounded by its treasures, the Thermalium thermal oasis has written a new chapter in the history of wellness treatments.

Beauty Programmes – Lush Youthful Look

Even the most demanding guests will be satisfied with our wide selection of facial, hand and foot treatments, ranging from classic to medicinal and from Pannonian to royal.

Relaxation and Beauty Programmes

Body Treatment Programme – Youthful Look, Relaxation and Well-Being

Our topmost body treatment services are assured with the use of the most recent methods and our specialised methods, such as »Concerto« and »Dermalife Spa Jet« capsules accompanied with various body compresses (fango, algae, seabed mud, clay, vitamins and other).

Relaxation Programmes – Relaxed Pleasure Unleashed by Classic and Ancient Methods

Thermal hydroxur baths are perfect for post stress relaxation. The Eve Taylor clinical aromatherapy products are well known worldwide. Ancient Ayur Vedan healing reinstates the equilibrium of the five crucial elements which condition psychophysical health. The so called stone therapy with volcanic basalt and marble stones is the most popular energetic massage in the world. In addition to classic manual and water massages, Thermalium also offers highly specialised exotic massages, such as Thai, Indian, Shiatsu and others.

Sports and Recreation

Terme 3000 offer numerous opportunities for sport activities. The sports ground, covered with artificial grass can be arranged as a tennis or badminton court and volleyball or handball playfield. Nearby, there is a clay tennis court, fitness track and a bicycle centre available.

Play the wonderful game of golf at the Livada Golf course awaiting you just a couple footsteps from swimming pools and hotels.

The abundant sporting opportunities combined with the unique »black« water assist in post-injury rehabilitation treatments. This combination provides ideal conditions for active competition season preparation and/or rehabilitation of the most competitive athletes and various sport teams.

You can enjoy different sporting activities available. Choose between tennis classes, Nordic walking and a summer swimming school for the youngest or take a guided cycling tour.

The 18-hole golf course stretches over more than 50 hectares and offers plenty of golfing delight to beginners and experienced players alike. The course's most distinctive particularity is, beyond any doubt, the 9th hole which is almost 600m long. You can choose between attractive golfing holidays, attend golf gatherings and tournaments or join the Moravske Toplice Golf Club.

The golf course also provides individual and group coaching sessions.

In the Land of Intact Nature and Friendly People

Cycling adventure

Those who enjoy exploring the countryside by bicycle can set out for a carefree and comfortable ride along arranged cycling paths – individually or in groups. Paths are of different lengths and difficulty levels. Cycling over plains and wine-growing hills, in forests or along rivers will reveal all of the country's beauty.

Terme 3000 – Moravske Toplice lies in the heart of the land of thermal springs, on the plains across the Mura river, close to Goričko Regional Park.

Strolling through woods and over fields you will experience nature in an entirely different way. Friendly and hospitable locals will gladly chat with you and help you in researching the surroundings.

Learn about the rich history of the region along the Mura river. Visit the Bogojina Church designed by Plečnik and the Selska Rotunda which dates from the 13th century. Admire Aqila's frescoes in Martjanci and Turnišče and the largest Slovenian castle in the village of Grad in Goričko. Observe local potters demonstrate their skills in making the characteristic »black« ceramics. Buy flour and pumpkin oil produced with traditional processes in the Mura water-mills and the scarce remaining oil-mills...

The nearby wine-growing hills call for a wander along wine roads with occasional stops to taste the excellent wines of the region. Treat yourself to Prekmura ham and Gibanica (a specialty cake of the region) and enjoy tasty bograč or Prekmura pork and sausages at one of well-known tourist farms and wine shops. Join excursions to famous wine cellars organised by Terme 3000 such as the Gornja Radgona champagne cellar. Or take the wine road to Jeruzalem, which will lead you through the oldest town in Slovenia - Ptuj.

*Hotel Livada Prestige******

The Livada Prestige Hotel is both the first and the only 5-star hotel in Europe providing complete relaxation with black thermal mineral water in your room. 23 “Classic” single bedrooms, 67 “Prestige” double bedrooms, 28 “Junior” suits with a small dining room and 4 “Senior” suites with a separate dining room. All the rooms are equipped with air conditioning, satellite TV, direct telephone, mini bar, hotel safe deposit box, Internet access, bathrooms with black thermal mineral water and fresh water (Prestige, Junior, Senior), as well as massage shower (Classic, Junior, Senior). The Livada prestige hotel offers state-of-the-art wellness centre, the world of saunas, gym with exercise equipment and solarium. You can experience an abundance of adventures in as many as 6 swimming pools, i. e. 4 outdoor and 2 indoor. You can feel and taste the Prekmurje in our gastronomic offer. Kind business atmosphere awaits you in the state of the art congress and banquet hall.

All the hotels within the Terme 3000 complex are interconnected and they lead to the Thermalium Wellness Centre.

Business Centre

The business centre in Hotel Livada Prestige and in Hotel Ajda is the perfect place for congresses, round tables, seminars, meetings, business gatherings, presentations, courses/trainings and receptions.
